We hope you enjoyed our mural hunt. Hooray for ART!

## INTEGRATED ARTS AT WILLOWWIND

Integrated Arts combines academic areas like social studies and literacy with the Arts. This provides students with opportunities to expand upon core curricular content and supports large-scale learning projects initiated in the home classroom.

The Integrated Arts program also works with local creatives to bring even more art and learning to Willowwinders. Whether we're inviting muralists to come share insight into their creative process, or listening to a poet or musician share their work, we believe that providing students with regular opportunities to interact with art is imperative for both personal and academic growth.
